

# Pumpkin Donuts with Vanilla Sugar

Total Time:

Portions: 18 Portions

## Ingredients

### For the donuts

**3** Large Eggs

**2 tbs** Taylor & Colledge Vanilla Bean Extract

**340 g** Pumpkin Puree

**300 g** Plain Flour

**1.5 tsp** Baking Powder

**1 tsp** Ground Cinnamon

**0.5 tsp** Ground Nutmeg

**150 g** Light Brown Sugar Light

**100 g** Granulated Sugar

**120 ml** Sunflower Oil

### For the vanilla sugar

**200 g** Granulated Sugar

**1** Taylor & Colledge Organic Vanilla Pods

## Preparation

1. Preheat the oven to 175°C (350°F).
2. In a mixing bowl, whisk together the flour, baking powder, cinnamon, and nutmeg. Create a well in the center of the mixture and set aside.
3. In another large bowl, whisk together the brown sugar, granulated sugar, canola oil, eggs, pumpkin puree, and vanilla extract until well combined.
4. Gradually add the dry ingredients into the wet ingredients, folding with a silicone spatula until there are no streaks of flour (slightly lumpy batter is fine).
5. Spray three 6-well donut pans (18 wells total) with non-stick spray. Spoon or pipe the batter into the wells, filling each about  $\frac{3}{4}$  full.
6. Bake for 15–18 minutes, or until a toothpick inserted into the center comes out clean. Let the donuts cool on a baking rack.
7. To make the vanilla sugar, cut the vanilla bean pod in half lengthwise and scrape out the seeds. Mix the seeds and the sugar in a blender – be careful not to blend too much, you don't want powdered sugar.
8. Once the donuts are slightly cooled, add them to the vanilla sugar and coat.
